SPECIFICATIONS & SCOPE OF WORK
Volunteer/Technical Coordinator
Urban & Community Forestry Program (Kaulunani)

I. BACKGROUND

The Urban and Community Forestry program is a U.S. Department of Agriculture (USDA) program authorized as part of the Forestry Title of the 1996 Farm Bill passed by the 101st Congress. The purposes of the Urban and Community Forestry Program are to: 1) improve understanding of the benefits of preserving existing tree cover in urban areas and communities; 2) encourage owners of private residences and commercial properties to maintain trees and expand forest cover on their properties; 3) provide education programs and technical assistance to State and local organizations (including community associations and schools) to maintain forested lands and individual trees in urban and community settings and identify appropriate tree species and sites for expanding forest cover; 4) implement tree planting programs to complement urban and community tree maintenance and open space programs; 5) promote the establishment of demonstration projects in selected urban community settings to illustrate the benefits of maintaining and creating forest cover and trees; 6) promote the understanding and practice of technically sound urban forest and tree maintenance; and 7) expand existing research and educational efforts intended to improve understanding of urban tree growth and maintenance, tree physiology and morphology, species adaptations, urban forest ecology, and the economic, environmental, social, and psychological benefits of trees and forest cover in urban and community environments.

II. PROGRAM GOALS AND OBJECTIVES

The overall objective of the program is to assist the Department of Land & Natural Resources, Division of Forestry and Wildlife to successfully implement the Urban and Community Forestry Program by developing and maintaining an outreach/volunteer program and coordinating the technical assistance component of the program to enhance on-the-ground project establishment and maintenance success.
- B. Direct the outreach and volunteer program to support existing and new nonprofit, business and government urban and community tree planting efforts in cities and communities in Hawaii.

due by **4:00 p.m. (HST) on Monday August 10, 2010**. Bidders must submit **three (3) copies** each of the Project Proposal and Bid Proposal.

- B. Project Proposal - In Step 1, each Project Proposal will be opened and added to a list of proposals, after which time a review committee will convene for evaluation. The Project Proposal shall first be reviewed for completeness and compliance with the general procurement requirements specified in this document. The Project Proposal shall not contain any reference to the total bid so that it may be evaluated strictly on the basis of technical merit.

Compliance Review - In Step 2, the sealed Bid Proposals submitted by those bidders with a qualifying Project Proposal will be opened and evaluated. The evaluation committee shall conduct a comprehensive, fair and impartial appraisal of each Project Proposal submitted and assign a score as described in the "Scoring Criteria," Section I. This procedure shall be attended by the evaluation committee, or any other members deemed necessary by the State, and shall NOT be subject to public attendance or public scrutiny.

Scoring Criteria - Those proposals that qualify the Compliance Review (Step 2 in Section B) shall be evaluated based upon seven (7) criteria deemed critical to the successful completion of all project requirements. The evaluation process will award points on a scale of 0 to 5 (0 = poor, 3 = fair, and 5 = excellent) for each criteria. Each member of the evaluation committee will score each proposal. Points awarded for each criteria will be multiplied by the weighted value given. The final scores of each proposal will be an average determined by assessing the total scores of all committee members.

Proposals submitted will be evaluated using the following weighted criteria:

1. The professional qualifications of the consultant to perform the work under scope of services (Weighted Value 4).
2. Knowledge and experience needed to coordinate a network of organizations to assist volunteer and community urban tree planting projects statewide. This may include conducting collaborative problem-solving/planning or broad-based community and agency building activities (Weighted Value of 4).

Experience would preferably have included attendance at several National technical Urban and Community Forestry Conferences and state coordinator=s meetings (Weighted Value of 4).
4. Have obtained at least a Bachelor of Science Degree in Horticulture (4 year), Arboriculture or Urban Forestry or related field from an accredited University and certification as an arborist with the International Society of Arboriculture (Weighted Value of 2).
5. Experience producing technical urban tree, arboriculture or landscaping information in appropriate forms to educate people of various backgrounds and educational levels (Weighted Value 2).
6. Demonstrate professional technical and work experience needed to advise the State Urban and Community Forestry Council as it reviews urban tree planting project proposals (Weighted Value 2).
7. Demonstrate ability to deliver the objectives of the State Urban and Community Forestry Strategic Plan. This plan shall describe statewide actions to increase urban forestry activities in local and community forest areas throughout Hawaii (Weighted Value 2). During this phase, the evaluation committee, in addition to reviewing documents submitted, may also conduct reference checks, telephone interviews, and/or site inspections to assess or verify contractor's background, as necessary.

Those bidders failing to receive a minimum qualifying score shall be (1) disqualified from further consideration, and (2) mailed a Notice of Determination, along with the bidder's Bid Proposal.

The State reserves the right to determine what is in the State's best interest in this evaluation process and its decision shall be final. The State reserves the right to select portions of a proposal, or to reject any and all proposals.

- C. Cost of Proposal Preparation - Costs for developing the proposals are solely the responsibility of the bidder, whether or not any award results from this solicitation. The State of Hawaii will provide no reimbursement for such costs.
- D. Disposition of Proposal - All proposals become the property of the State of Hawaii. The successful proposal will be incorporated into the resulting contract.
- E. Notification - Each consultant will be notified in writing of the evaluation committee's selection decision.
- F. Bid Evaluation - Award will not be made on the basis of price alone. The Total Bid Price shall be evaluated by taking into consideration the submitted bid price AND how well the bidder meets the criteria set forth below under Evaluation Criteria. Step 1

No work is to be undertaken by the Contractor prior to the Commencement Date specified on the official Notice to Proceed. The State of Hawaii will not be liable for any work, contract, cost, expenses, loss of profits, or any damages whatsoever incurred by the Contractor prior to the official start date.

EXECUTION OF CONTRACT

No performance and payment bonds are required.

The State shall forward to the successful Offeror a formal contract to be signed by the Contractor and returned within ten (10) days. No work is to be undertaken by the Contractor prior to the commencement date specified on the Notice to Proceed issued by the State upon execution of the contract by both parties. The State of Hawaii is not liable for any work, contract, costs, expenses, loss of profits, or any damages whatsoever incurred by the Contractor prior to the official commencement date.

Should it become necessary to extend the contract, a Contract Modification shall be executed for the extended period.

PERMITS, LICENSED, AND TAXES

The Contractor shall procure all permits and licenses, during the original or extended contract term, pay all charges, fees, and taxes, and give all notices necessary and incidental to the due and lawful prosecution of the work.

Failure to procure and maintain valid permits and licenses required by law and these specifications may be cause for the State to terminate the contract

PRICE ADJUSTMENT DUE TO WAGE INCREASE TO STATE EMPLOYEES

[The following example is based on hourly rates for security guard services. PS will have to customize this adjustment provision to the type of services being procured.]

1. Contract price adjustment shall be considered:
 - a. Only upon request by the Contractor accompanied by proof satisfactory to the State that its employees have been paid comparable wages to State employees; and
 - b. Only if there is a wage increase to public employees performing comparable work; and
 - c. Only for the contract period in which the price adjustment request is submitted (current contract period only).

Example:

Original contract period: March 7, 2003 to March 6, 2004

Extension period: March 7, 2004 to March 6, 2005

The option to extend the original contract is exercised for the period March 7, 2004 to March 6, 2005. On March 1, 2005, the State announces a pay raise retroactive to July 1, 2003 and the Contractor soon thereafter submits a request of modification is issued accompanied by acceptable documentation. A contract modification is issued to reflect a price adjustment for the current period of the contract, March 7, 2004 to March 6,

2005. Note that the price adjustment is not applied retroactively to July 1, 2003 since the condition of this contract allows price adjustment to the current contract period only.

2. Price adjustment based on the actual dollar increase per hour per State employee shall be calculated as follows:

a.	Bid Price/Hr/Officer (A)	= (A) for example = \$15.00/hr
b.	Current Hourly Wage Rate (B)	= (B) for example = \$11.00/hr
c.	New Hourly Wage Rate paid to State Employees (C)	= (C) for example = \$11.50/hr
d.	Hourly Wage Increase to State employees (D)	= (D) for example = \$.50/hr
e.	Adjusted Bid Price/Hr/Officer (E)	= (A) + (D), or \$15.00 + \$.50 = \$15.50/hr

3. In addition to the actual dollar amount of wage increase, Contractor may apply for the percentage (%) fringe benefits required by Statute. However, the resulting fringe benefit percentage shall only be applicable to the actual dollar amount of increase and the State shall only consider those benefits that are required by contract and are directly affected by the wage increase.

If request includes adjustment for wage related fringe benefits, Contractor must provide support documentation and an itemized percentage breakdown of the fringe benefits being paid.

The State has determined that the applicable fringe benefits for wage related price adjustments shall be limited to: 1) Federal Old Age Benefits, 2) Worker Compensation, 3) Temporary Disability Insurance, and 4) Unemployment Insurance. Based on past experience, it has been determined that the percentage increase be set at 16%. If Contractor is able to document that its percent for fringe is higher than 16%, the State will review and consider Contractor's claim.

The following method of calculation shall be applied for the fringe benefits:

a.	16% for Allowable Fringe Benefits	
b.	\$ Adjusted for Allowable Fringe Benefits (F)	= (D) x (.16) = F, or \$.50 x .16 = \$.08
c.	Adjusted Bid Price/Hr/Officer + Fringe Benefits	= (E) + (F), or \$15.50 + \$.08 = \$15.58

4. After the contract modification for the increase is issued by the State, but before payment of an increase is made on the portion of the current contract period already performed, the Contractor shall show proof that its employees were given the retroactive wage increase.

SUBCONTRACTORS

The Contractor shall not delegate any duties listed in this RFB to any subcontractor unless the Contract Administrator has given written approval. The State reserves the right to approve all subcontractors and shall require the primary contractor to replace any subcontractors found to be unacceptable. The primary contractor will be the sole point of contact with regard to contractual

matters, including payment of any and all charges resulting from the contract, and shall be responsible for all services whether or not the primary contractor performs them.

RE-EXECUTION OF WORK

The Contractor shall re-execute any work that fails to conform to the requirements of the contract and shall immediately remedy any defects due to faulty workmanship by the Contractor. Should the Contractor fail to comply, the State reserves the right to engage the services of another company to perform the services and to deduct such costs from monies due to the Contractor.

REMOVAL OF CONTRACTOR'S EMPLOYEES

Contractor agrees to remove any of its employees from services rendered and to be rendered to the State, upon request in writing by the Procurement Officer.

LIQUIDATED DAMAGES

Refer to Section 9 of the AG General Conditions, Form AG-008, as revised.
